

MIRMIL NEWSLETTER

MARCH 2024

EMPLOYEE LUNCH

**OUR NEXT LUNCH WILL BE
MARCH 13TH.**

BIRTHDAYS

The following employees are celebrating a birthday this month:

- Kody Bootsma
- Mike Corrigan SR.
- Hannah Singh

HAPPY BIRTHDAY!

ATTENDANCE EMAIL

Our attendance email is back up and running. If you are absent or running late, please email attendance@mirmil.ca.

WORK ANNIVERSARIES

Happy Work Anniversary to the following Mirmil Team members:

- Steve Bentham – 2 years
- Zach Brown – 1 year
- Colin Clair – 1 year
- Kevin Huffman – 2 years
- Davyd Kartashov – 1 year
- Chris Rutt – 2 years

Thank you for all that you do!

SOCIAL MEDIA UPDATE

We will be starting an “Employee Spotlight” post on social media once a month. Basically, we will highlight one employee per month with a picture, what you do, how long you’ve been with the company and the part you like the most about working for Mirmil. We will be picking people randomly but if you are not interested in partaking, please let Sam know. This will be shared on Facebook and Instagram.

GOOD FRIDAY

We will be closed on Friday March 29th for Good Friday. We will reopen with regular hours on Monday April 1st. Have a great Easter!

Why should you always knock on a refrigerator door before opening it? In case there's a salad dressing inside Ha ha ha ha ha

BRIGHTON RIDE SHARE

If anyone drives from the Brighton area to work and is interested in picking up a current employee, please see Sam. This employee will eventually be getting their license, so it will be short-term, but just thought we would throw it out there to see if anyone is able to help out.

READING BLUEPRINTS TRAINING

For those that are interested in reading blueprints, Travis will be holding a few after-work training sessions. The dates for these are as follows:

Thursday March 7th from 5-6:30

Thursday March 14th from 5-6:30

Thursday March 21st from 5-6:30

These will be held in the upstairs training room.

Let Sam know if you are interested in attending.

If there are any other training sessions you think would be beneficial, please let Sam know as well!

3D Printing Training

We wrapped up the 3D Printing Training on February 28th. So many cool ideas and creativity! All participants got to design and produce a tool that would help them do their job better. Way to go!
